

May Im

Product Designer (UX/UI)

dladprud1008@gmail.com | +1 672 964 0251 | [Linkedin](#) | [Portfolio](#)

SUMMARY

Product Designer with 4+ years of experience designing AI-powered SaaS products, mobile experiences, and education-related digital products. I specialize in simplifying complex workflows into intuitive and accessible user experiences, with strong experience in design systems, usability testing, responsive design, and cross-functional collaboration. Improved user experience by reducing re-selection rates by 59% and cutting selection time by 50%, while integrating AI-assisted workflows and closer design-to-development collaboration to accelerate exploration, iteration, and implementation.

WORK EXPERIENCE

Product Designer *Cornerstone College (CICCC)* | Education Platform & Website UX Aug 2025 - Present

- Leading the redesign of CICCC's education website by restructuring program discovery, admissions requirements, and domestic/international student flows to help prospective students find key information and understand application paths more easily.
- Integrated AI into 70%+ of the design workflow using GPT, Claude Code, Figma MCP, Google Stitch, and image generation tools, earning management trust and becoming a go-to resource for AI-related projects and workflow support.
- Built a custom Figma plugin with Claude Code to automate Auto Layout and responsive adaptation, reducing repetitive landing page design time by 50%+ and improving consistency across breakpoints.

Product Designer *Wildflower-Gardening* | Homeless-Shelter Management Platform Sep 2024 – Jan 2025

- Led UX/UI design for a digital platform used by homeless shelters, introducing NFC-based entry tagging and simplifying leave-request workflows to improve accessibility for digitally vulnerable users, driving 94% feature adoption and 30% faster task completion.
- Built a scalable, cross-platform design system to unify inconsistent UI components across web and mobile, improving implementation speed and efficiency for developers, along with design consistency and team collaboration, while ensuring WCAG AA compliance.

UX Designer *TmaxGAIA* | Enterprise No-Code Platform Mar 2024 – Nov 2024

- Designed and launched logic configuration and custom component creation workflows in GAIA, a no-code platform, informed by research on 10+ no-code platform references and validated through internal A/B testing with developers.
- Redesigned the component publishing flow to resolve UX issues that caused unintended component deployment, improving publishing accuracy by 42%.

UX/UI Designer *CNAI* | AI Avatar Video Creation Platform Feb 2022 – Jul 2023

- Led end-to-end UX design for an AI avatar video generation platform, conducting user interviews and competitive analysis to identify usability pain points and redesign complex video creation workflows and right-panel structures, reducing video production time by 63%.
- Partnered with a major telecommunications company (KT) to design an integrated AI avatar creation platform by combining voice synthesis and video generation technologies. Introduced a recommendation-based voice selection flow and improved filtering UI, reducing re-selection rates by 59%, increasing user confidence from 45% to 82%, and shortening selection time by 50%.
- Designed AI interaction flows for public kiosks, awarded Grand Prize for AI-driven service innovation and deployed at an international exhibition, by defining voice and motion interaction patterns through user research.

UX/UI Designer *UrbanUpcycling* | Urban Regeneration Projects Sep 2020 – Feb 2021

- Created design visuals and proposal materials for urban regeneration projects using Adobe tools, contributing to the successful acquisition of a ₩2.2B (\$1.6M USD) government contract.

EDUCATION

UI/UX Design Co-op Diploma | CICCC Apr 2025 – May 2026

Bachelor of Arts, Industrial Design (UI/UX Concentration) | Kookmin University Mar 2017 – Feb 2022

SKILLS

Product & UX Design: End-to-End Product Design, Information Architecture, User Flows, Wireframing, Prototyping, Usability Testing, Responsive Web Design, Design Systems, Accessibility, WCAG

AI & Development Collaboration: AI-assisted Workflows, Claude Code, Figma MCP, ChatGPT, Google Stitch, Custom Figma Plugin Development, Design-to-Code, GitHub, Pull Requests, Vercel, Front-End Collaboration

Tools: Figma, Adobe Creative Suite, Framer, Miro, FigJam, Notion, Jira
